## GUIDELINES FOR ADJUDGING "NATIONAL GOPAL RATNA AWARD" IN ANIMAL HUSBANDRY & DAIRYING SECTOR DURING 2022.

### 1. Introduction:

For transforming the entire ecosystem of awards conferred by the Government of India especially building credibility and trust by focusing on merit, objectivity, transparency, people-participation, simplicity, efficiency and use of technology, the Central Awards Support Unit (CASU) set up in MHA has exercised reviewing and revamping of awards.

### 2. Preamble:

2.1 Indigenous bovine breeds of India are robust and possess the genetic potential to play crucial role in the national economy. In the absence of a specific programme on development and conservation of indigenous breeds, their population has been declining and their performance is below the potential at present. Hence there was an urgent need to take up a scientific programme for their development and conservation. Under the leadership of the Hon'ble Prime Minister of India, "Rashtriya Gokul Mission", a new initiative was launched in December 2014 for the first time in the country, with a view to conserve and develop indigenous bovine breeds.

2.2 The objective of any bovine breeding programme is genetic up-gradation of Cattle and Buffaloes and to achieve this, Artificial Insemination (A.I.) service needs to be robust. There are 302 million bovines in the country as per 20<sup>th</sup> Livestock census. The average productivity is 5 kg per animal per day at present. Their average low productivity is a matter of concern. AI technicians have a crucial role in transforming the bovine population from the state of low productivity to optimal productivity. Hence there is a need to identify the best AI technician striving hard towards 100% AI coverage so as to achieve the country's flagship programme objective of doubling of farmers' income.

2.3 Similarly, 1.96 lakh Dairy cooperative societies and Milk producer Companies at village level are growth drivers as it involves about 1.72 crore dairy farmer as members and act as a rural institution to provide the farmers market access for their produce and help in earning remunerative price.

### 3. Categories:
